## Look Closer at the clothes Than You Do at the Price

THE best time to save in clothes is when you buy them; and the best way to save is to buy good clothes.

Look closer at the goods than at the price; be more particular about what you get than what you pay. Good clothes are higher priced than they were, but not higher priced than they're worth.

The clothes we sell are good clothes; made to give you long wear and service.

# ITALIAN DRIVE PUTS AUSTRIAN ARMY TO FLIGHT

ALREADY 20,000 PRISONERS TAKEN. AMERICAN  
BIG GUNS BOOMING ON FRENCH FRONT

(Associated Press War Summary)

Italians who one year ago were streaming westward from the Isonzo with a great military disaster imminent today are pouring through what appears to be a breach in the Austrian lines east of the Piave river. British and French divisions are battling with the Italians and small American contingents are in reserve. Conegliano has been captured and along the line stretching south to the Treviso-Oderzo railroad the Allies are moving steadily ahead. Prisoners numbering over 20,000 have been taken. Conegliano is an Austrian key position on this front.

Bitter fighting has been going on in the Meuse sector of the French front during the last day or two. East of the river the Americans moved ahead once more, taking important positions from the enemy. West of the Meuse the Germans have been heavily bombarding the American lines and back areas with gas and high explosives. In return American long range artillery has been pounding German supply lines at Conflans west of Argonne forest. The French have begun an attack which promises to turn the Aisne line which is the main obstacle to the French advance. In Vouziers region good progress was made during the first hours of the new onslaught.

Field Marshal Haig today reports quiet on the British front in France.

### Austria Concentrates Fleet.

PARIS, Oct. 30.—The Austrian fleet has been hastily concentrated at Fiume, according to a dispatch from Rome to the Temps under date of October 24. A few vessels remain at Pola but all that were at Cattaro have left. It is said this concentration was demanded by Hungary.

### Quiet on British Front.

LONDON, Oct. 30.—On the British front in France Field Marshal Haig today reports no activity, except patrol encounters in which the British advanced capturing a few prisoners.

## AUSTRIAN FLIGHT GAINING SPEED

LEAVE MANY GUNS AND MUNITION WAGONS TO PURSUING ITALIANS.

(By the Associated Press)

Italian Headquarters on the Piave, Oct. 30.—Austro-Hungarian forces are retiring in the region east of Conegliano. They are leaving behind, scattered along the roads toward Vittorio, seven miles north of Conegliano, and Saccile farther west, many big guns and munition wagons. Conegliano is now being used by the Italians as a supply station and from this city they will be able to dominate not only the lower mountain region but also enemy troops on the lower Piave. Large numbers of Italian cavalry have already crossed the Piave.

### French Encircling Guise.

PARIS, Oct. 30.—General Debeney's first army has gained new successes in the encircling of Guise, according to official announcement today. North of the city they took Beaufort farm. North of the Oise, along the Peron river, south of Guise the French progressed east of Monceau-le-Neuf, capturing prisoners.

### FUNERAL OF HUB TRIMM

THIS AFTERNOON The body of John Hubbard Trimm arrived this afternoon from Camp Lewis, Washington, escorted by a comrade of deceased. It was laid to rest at Rosedale cemetery, Rev. Baker conducting the funeral services.

## GERMANY WILL HEAR TERMS

ALLIED WAR COUNCIL AT WORK ON CONDITIONS TO BE DEMANDED OF HUNS.

(By the Associated Press)

PARIS, Oct. 30.—Meagerness of news during this important period of inter-allied war council proceedings is due to the strictness of censorship and congestion because of exchanges between governments. It is reported that the main points of the terms on which an armistice will be granted have been agreed upon by the inter-allied council, and that final peace terms will be submitted to Germany at the same time.

### EXCESS PROFITS TAX EXTENDED TO ALL BUSINESS CONCERNS

Washington, Oct. 29.—War excess profit taxes imposed only upon corporations in the war revenue bill as it passed the House were extended by the Senate Finance Committee today to individuals and partnerships in trade or business.

Under the committee's plan, individuals and partnerships, such as lawyers, doctors and other professional men, would not be subject to the war excess profits taxes, made applicable only to those actually engaged in trade or business. The amendment, it was stated, will restore estimated revenue returns from war excess profits to about \$3,200,000,000, the sum proposed in the House bill, but reduced by the Finance Committee revisions.

## GERMANY SENDS ANOTHER NOTE

TELLS OF RADICAL CHANGES MADE IN GERMAN GOVERNMENT. KAISER LOSES.

(By the Associated Press)

Washington, Oct. 30.—Another note from Germany reached Washington today. It supplants the last brief communication, saying armistice terms are awaited, by citing in detail the changes which have taken place in Germany as evidence that the Kaiser has been deprived of all power of making war and negotiations. Germany this time does not address President Wilson personally, but sends the information for the American government, apparently recognizing that the stage of personal appeals has passed with the transmission of their armistice and peace plea.

### Reply to Austria Ready.

Washington, Oct. 30.—As word of the new German move arrived President Wilson today was working on the reply to Austria's last note in which the Austrian government accepts all armistice conditions. The reply to which probably will be made before night, is expected to inform the Austrian authorities their request has been referred to the governments associated with the United States.

## COAST ARTILLERY WANTS OFFICERS

More officers and men are wanted for the coast artillery and a training school has been established at Fort Monroe, Va. Any man in registration age is eligible, but those between 30 and 45 are preferred. Those whose records entitle them to it will be transferred to the officers' training school and on successfully completing a three month's course will be given lieutenants' commissions. Those trained will likely be sent abroad with the heavy artillery. If a man feels that he needs a review in mathematics before entering the school proper, a course of either two or six weeks is provided.

Application blanks may be had by addressing M. T. C. A. No. 605, Security Bldg., Oklahoma City. Three letters of recommendation from responsible parties should accompany the application.

### GERMANS MUST NOT BE USED SAYS COUNCIL

Oklahoma City, Okla., Oct. 30.—(Special).—Germans must not be used in public places in Oklahoma. This is the edict sent out by the Oklahoma State Council of Defense on learning that its former recommendation had not been heeded in some sections of the state. The following resolution was passed at the last session of the state body and notice was sent to all county councils:

"WHEREAS, This country is now in a state of war with Germany and the use of the German language tends to create fiction and raises a question of the loyalty of those who use it.

"THEREFORE BE IT RESOLVED That it is the sense of the Oklahoma State Council of Defense that the use of the German language shall be entirely discontinued in every public place in the State of Oklahoma."

### MONTENEGRO WILL JOIN NEW JUGO-SLAV STATE.

Paris, Sunday, Oct. 27.—King Nicholas of Montenegro has sent a declaration to the Jugo-Slavs in which, after expressing his joy over President Wilson's reply to Austria and affirming the independence of the union of Jugo-Slavs, he said: "I declare solemnly that Montenegro must become a constitutional part of Jugo-Slavia."

The King advocated a confederated Jugo-Slavia in which each state would be equal and would retain its rights, institutions and religion.

## BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

Scott Ferris says we shall have peace within a week. We like Scott all right, but we'll feel better about that peace when it comes.

Just as a reminder, we suggest that the influenza epidemic is not over yet, and precautions should still be taken. More cases are reported in some of the army camps.

What is the difference between killing the Germans now and getting a surrender later and in accepting a surrender now? If President Wilson's suggestions go through and Germany accepts, it will mean a surrender.

Those who read Paul Alderson's letter in yesterday's News realize that the Ada boys are now doing a plenty to the Fritzies. We'll stake our reputation on a bet that it will not take more than a few thousand like Paul to kill a couple of million Germans.

What has puzzled the Kaiser is the fact that the world has refused to take his word for it that he is the appointed of the Lord to rule the universe and quietly submit to his benevolent power. To date the world has not confirmed this divine appointment.

There will be a tender spot in the hearts of those who have been cared for in the Emergency Hospital for those responsible for its existence and also for those who responded to the call to nurse. We are yet to hear a word of censure and have heard millions of words of praise.

Republican leaders have searched every corner for a campaign issue, but have not yet advanced a valid reason why a Republican Congress could do more toward winning the war than has been done by the present Congress. Of course the two parties have worked together for

winning the war, but there is no valid reason for changing leaders now. The same holds good in Oklahoma. Judge Robertson is certainly as safe a man as McKee could possibly be in our opinion much safer, and the same applies to the remainder of the ticket. Then why make a change in experimenting with new men?

From his utterances since the war started it is hard to tell which Roosevelt has the poorest opinion of Wilson or the Kaiser. Nothing has been done that meets Teddy's approval, at least he has not given any indication of being satisfied with anything. His long suit is pointing out how much better he could handle the job.

The Students Army Training Corps of the East Central Normal is said to be the only training camp in the state which has not lost a soldier from the influenza epidemic. Of course, the epidemic is not over yet, but we all are proud of the record thus far. The boys were given the best of treatment and care and all have recovered without a case of pneumonia.

A WRONG PRESISE.  
Most of those who criticize President Wilson, relative to his notes to Germany and Austria-Hungary, base their conclusions on the premise that the President did not confer with Lloyd George or Clemenceau before writing them. There is no reason to doubt that the President is in full accord with the leaders of the other Allied governments and that they approve his notes in every respect. The critics suspect that Germany is trying to trick President Wilson into advocating a peace and in this way driving a wedge between the government of the United States and the governments of Britain, France, and the other nations fighting with us. They do not give the President credit for knowing anything of the German mind or German psychology, two things that he is thoroughly familiar with. They do not give him credit for being enough of a man to play fair with his associates.

We do not wish to accuse any of the President's critics of playing politics when the honor of the nation is at stake as it is at this time. It is strange, however, that the President's acts should be so strongly condemned just before election time, that he should be accused of wanting to make a negotiated peace, that his fourteen points of peace uttered eight months ago should be assailed for the first time ten days before election, when as a matter of fact President Wilson has stood all the time and still stands for the absolute destruction of the German military power and indemnities for damages done.

SPAIN ABOUT READY FOR PRO-ALLY STAND.  
Paris, Oct. 29.—(Havas).—An exciting session of the Spanish Cortes took place yesterday, according to a dispatch from Madrid to the Petit Parisien.

Count Romanones, the minister of public instruction, condemned the unrestricted neutral policy of the Spanish government and other orators spoke in a similar vein. Count Romanones asserted Spain should adopt a pro-ally policy. He asserted that if Spain wanted to enjoy a lasting peace, she must declare her position without hesitation.

Premier Maura, according to the dispatch, declared his intention of resigning. He declared the political crisis would then become acute, and the entire nation would be compelled to intervene in order to bring about a solution.

TWO DIVISIONS OF JAPANESE NOW IN SIBERIA  
Tokio, Oct. 30.—Japan has sent two divisions of troops and part of a third division to fight the Bolsheviks in Siberia. Colonel Wada, senior adjutant in the war office made these facts known officially to correct any impression that the Japanese army is mobilizing on a large scale for operations in Siberia. He added: "In order to enable those divisions to work to the utmost efficiency in so wide a country, it was necessary to provide for them addition artillery, aviation corps, field and wireless corps, railway corps, pontoon battalions and some other contingents in the rear."

KAISER FILM HERO, NATION DIRTY MOVIE SHOW—HARDEN  
London, Oct. 28.—A Copenhagen dispatch to the Exchange Telegraph Company quotes Maximilian Harden, the editor of the Die Zunkunft of Berlin, as saying in an interview with the Berlingske Tidende of Copenhagen:

"We started the war with a dirty trick and all our subsequent victories have had the resemblance of dishonesty. William II is a film hero and Germany a vulgar cinematograph show. We sit today on the ruins of thirty years of Hohenzollern politics."

AMERICANS DOWN 18 HUN PLANES IN DAY  
With the American Army Northwest of Verdun, Oct. 29.—Eighteen enemy airplanes were shot down during the day by American aviators. Five American machines were lost in carrying out important reconnoitering missions.

The artillery fire on the Verdun front was heavy today and there was much machine gun fire as well, west of the Meuse, especially north of St. Juvin.

## BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

### AFTER HUN SCOUTMASTERS

No man exercises a greater influence over an American boy than his scoutmaster. The Hun understands this. Before the war some Germans sought commissions as scout leaders. Why?

Since the war began facts have come to light showing that Germans and pro-Germans have endeavored to escape detection and continue their connection with the organization, although it is committed to patriotic service for the United States of America, the defeat of Germany and the stamping out of German militarism.

It is time for every scout official to keep awake. Is any troop sluggish in selling Liberty bonds and War Savings stamps? Find the reason—there's no time to be lost.

Who is teaching the boys? What is he teaching? Who endorsed his application for a commission? Did the applicant tell the truth on his application?

A scout is kind—but he does not befriend those who are killing his brothers in battle and murdering women and children for no reason except the love of slaughter, and greed.

The Boy Scouts of America are Americans. They obey the orders of the government.

### GOVERNOR PRAISES SCOUTS.

Gov. W. L. Harding of Iowa thus expresses his approval of the scout movement:

"Now that we have come to recognize the vital importance of making every citizen of the United States a true American, we must arrive also at a fuller realization of the benefits of each great movement which aims to accomplish this. Among these truly splendid movements is that of the Boy Scouts of America, and it is highly to the credit of the organization that it has the vision and began the work before the nation as a whole had come to the crisis.

"I see ahead of us, not only for the period of the war but during the generations to come, no single work finer or more hopeful than that which inspires to direct the boys of America into loyal, idealistic, intelligent manhood. I wish the tenets of scout law, as taught to the boys of this body, might be written also into the hearts of every man."

### PERSHING WRITES TO SCOUTS.

A letter from General Pershing praising the fine war work of the boy scouts has been received by Mr. Collin H. Livingston, president of the Boy Scouts of America. General Pershing writes:

"To the splendid army of four hundred and forty-two thousand American boy scouts, the American expeditionary forces send greetings and appreciation for all you are doing for our great cause. Upon you will soon fall the burden of our civilization. Every act and thought of yours, in keeping with the scout law, will help to make good citizens and good soldiers. Obey it in letter and spirit, and all the older scouts who are fighting for you and all we hold dear will shake hands with you as comrades who helped them win the war. Three cheers for the Boy Scouts of America!"

### SCOUTS, HOW ABOUT WALNUT?

Many barloads of black walnut have been reported to the forest service as the result of the scout canvass. This is fine. But what about the troops that haven't sent in any reports? Where are the trees? Where are the scouts?

The government must have the proper material for its gun stocks and propellers. It needs black walnut. It needs scouts to locate and report the timber. Scouts must not fall down on the job at this critical period when every bit of effort counts.

If they haven't completed their canvass, they should have a black walnut hike on Saturday after school. Get busy, scouts! Help beat the Huns in the woods of America.

### SCOUTS HELP THE DRAFTEES.

A letter from a scout official in Memphis says:

"A major of the United States army who has had a great deal of experience in receiving and transporting draftees in their camps states to the head of our draft board here that it would be impossible to get along without the scouts; that everywhere they were more helpful in handling crowds than even the police."

### EMBLEMS TO 38,000 SCOUTS.

The treasury department awards war service emblems to scouts who secured ten or more subscriptions in the Liberty Loan campaign.

It is the hope of the officers of the national council that this recognition by our government of their achievement will stimulate them as scouts to greater service to the government and to others.

Awards will be made to about 38,000 scouts for third Liberty loan service. This establishes what is believed to be

## AIRMEN GIVE HUNS PLENTY TO DO

London, Oct. 30.—(Correspondence of the Associated Press).—For four months London has enjoyed immunity from hostile air raids and moonlight nights are no longer dredged by its inhabitants. For many weeks German airmen have had far more urgent business to attend to on the other side of the channel. Much of this is due to the persistent raiding of Rhine towns and the bombing of German aerodromes. These attacks compel the enemy to muster for their defense machines which they can very ill spare from the battlefields where Allied supremacy in the air becomes increasingly manifest.

The frequent raids on German towns have been fully recorded but the growing frequency of attacks on German aerodromes have received much less attention. From information obtained from the War Ministry it is learned that in the month of August alone there were thirty-three attacks on German aerodromes, nineteen of which were directed against two of them which had become particularly obnoxious as hives of aerial wasps.

In one daylight raid of an aerodrome a fierce combat lasted over forty minutes as a result of which four German machines were destroyed and three others driven down "out of control." Two British machines were lost.

Many of the night raids have been very effective. Over one aerodrome five tons of bombs were dropped, seven direct hits on hangars were made and a fire was started. On another raid eight tons of bombs were dropped and several hangars completely burnt out, and the aerodrome covered with large holes which effectively spoiled it for landing purposes.

The effect of these attacks is to cripple the efficacy of the Germans' aggressive work and their power of retaliation and demoralize their personnel. Their recuperative powers are now at a low ebb.

### A Word of Appreciation.

We take this means of thanking the Woman's Missionary Society of the First Baptist Church, and everyone else who had anything to do with the pounding which we received yesterday. Since we have been in the pastoral work we have been the recipients of a number of just such poundings, but we do not feel that we ever appreciated one before just as we did this one. It does us good to know that the people whom we love, love us also; may the blessings of God rest upon each of you, and as further appreciation for all of the kindnesses shown us since we have been among you, and especially during our recent illness, we wish to pledge ourselves as being more willing to serve this church and people, and more ready to give of our best endeavors to the Master's cause.

Missionary, R. E. Ford, Wife and Daughters.

## Songs of the Sea

To the Soul of every one of us there comes at some time a great longing for the mighty ocean. We feel the majesty of its bigness—the serenity of its calm—the fearsome power of its storm.

The traditions of the ocean and the music embodying them hold a tremendous fascination for anyone of imagination or the slightest touch of romantic feeling. "The Flying Dutchman" and his blood-red bark; the swaying galleon sailing the golden sea with her pilgrims to the New World, or the lighthouse, standing firm on its rocky base, sending out its warning beacon gleam—music expresses the soul of them all.

## OKLAHOMA'S SHOWING IN LIBERTY LOAN

Okla. City, Okla., Oct. 30.—(Special).—Oklahoma's subscription to the Fourth Liberty Loan totaled \$43,468,300 in the sixty nine counties embraced in the tenth federal reserve district. This is an oversubscription of \$4,516,950, or over eleven and one half per cent.

This splendid record was achieved under most adverse conditions above which Oklahoma rose with her usual war spirit, defying drought, statewide epidemic of influenza, and a pernicious and terrific German peace propaganda calculated to mislead the country as to the necessity for furnishing enormous sums of money in the conduct of war. In many cases county organizations were crippled at the outset of the campaign. Death invaded committees and the families of chairmen. The response, however, came cheerfully and spontaneously on the whole according to reports received at state headquarters.

Districts Nos. 1, 2, 3, and 4, practically furnished the state's quota. Many of the drought stricken counties doubled, trebled or quadrupled the reduced quotas assigned them showing no disposition to take advantage of drought conditions of business depression. In one county the entire amount subscribed had to be secured from outside the county as there was only enough cash in sight to finance the county for another crop.

L. E. Phillips, state chairman, waged a whirlwind campaign and all the county chairmen either had or caught the spirit.

Following is the report by counties:

We have erected a new building of concrete floor and reinforced concrete walls, construction, of ample dimensions for use as a Machine and Repair Shop.

In designing this building careful study was given to light, ventilation, convenience and accessibility.

Workmen can work with more ease and comfort and do more and better work with proper light, ventilation and convenient and accessible tools, machinery and stock.

We have carefully studied and arranged with these features in view.

We have and are installing and equipping this shop with such machinery, tools, stock etc., as will make it the best equipped and largest in this section of the state. Already our facilities for doing work are unsurpassed within a radius of fifty miles and with more tools, stock and equipment coming we will soon have a very serviceable shop for those in need of Machine Shop or General Repair work.

## BLIND MAN SOLD HIS DOG TO BUY BOND

SAN FRANCISCO, Oct. 29.—Who offered the biggest sacrifice in the dollar drive against Kaiserism? Perhaps Gustave Razillard, of San Francisco did.

Gustave Razillard is blind. He sells pencils on a San Francisco street corner to make a living. Some people might think him a beggar. He is not.

He lost his eyesight in the Hun's first bombing of liberty. It was on a field of Orleans in 1871. Gustave Razillard was a French soldier in the Franco-Prussian war.

He has a boy, Louis, eighteen, in the American army today. He wanted to buy a Liberty Bond to back that boy. He had no money to buy it.

Besides his son, only one other thing that he loved had old Gustave Razillard. That other precious possession was his dog, the leader of the blind.

He offered the dog at auction to get money to buy a bond.

He had given his only begotten son for freedom. He had given his eyesight for freedom—had lived in darkness 47 years.

The sacrifice that remained to be made was his dog—Violet, his guide for eight years.

Razillard's dog was auctioned off to the man who bought the greatest total of bonds at the auction, thus winning the dog as a bonus.

To get the dog San Franciscans bought \$10,000 worth of bonds at that little auction.

Then the winner gave the dog back to Razillard. But the old man was actually almost sick at the apparent certainty that he was going to lose his guide.

To some it was a smile, to some a tear. To Gustave Razillard, Franco-Prussian war veteran, it was serious business.

What beggar who "severed in twain his only crust" is going to take from the blind veteran the wreath for the glory of the greatest giving?

## WEAK, DISCOURAGED WIFE

Advised by Friends to Try Vinol—What It Did for Her

Florence, S. C.—"I was in a weak, nervous, run-down condition,—took cold easily, could hardly keep around and do my work,—and was all discouraged. I had taken cough syrups and tonics without benefit, until a friend asked me to try Vinol.—I gained rapidly by its use, so I am now in good health."—Mrs. Addie Wilkerson.

The reason Vinol was so successful in restoring Mrs. Wilkerson to health, is because it is a constitutional remedy, which enriches and revitalizes the blood and creates strength.—Gwin & Mays Co., druggists, and druggists everywhere.

P. S.—For rough, scaly skin, try our Saxol Salve. Money back if it fails.

## WALKING UNDER DIFFICULTIES

"Believe me, I suffered from stomach and bowel trouble right. This weakened me so that I could scarcely walk. I could do no work. This was my condition when I started taking Mayr's Wonderful Remedy on the advice of a friend. Now I am working every day and feel better than I ever did in my life. It is the only medicine that ever touched me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & Mays Drug Co., and druggists everywhere.

## TOM M'KEOWN'S GOOD WORK IN CONGRESS

CONGRESSMAN TOM D. MCKEOWN

Washington, Oct. 30.—(Special).—On election day the voters of the Fourth Congressional District will elect their congressman. It is well understood in Washington that Congressman Tom D. McKeown, who represents this district is one of the hardest working members of the House of Representatives.

He went into office at the opening of the War Congress, and immediately found many demands from his district that required his personal attention, in addition to important legislation that demanded the time and best thought of the Representatives.

His characteristic good nature and ever-ready smile soon won for him a place in the confidence and esteem of his colleagues, and it is a well known fact that he has a greater circle of friends in the House than any new man that has been in Congress for years.

His speech on "The Power of the President Under the Constitution" won for him immediate recognition as one of the best lawyers in Congress.

In his office is established a regular bureau for all information and attention of War Risk Insurance and allotment cases, and hundreds of dependent wives and parents of soldiers have had occasion to be recipients of prompt attention from his office. He has been looking after the welfare of the soldiers in every way possible. Their matters receive first attention in his office.

He has been upholding the hands of the President in this crisis and has been loyal to the welfare of America. The people of the Fourth District will not forget to give Tom D. McKeown a handsome vote of confidence on Tuesday, November 5th.

## REPORTS FROM STATE CAMPAIGN ENCOURAGING

OKLAHOMA CITY, Oct. 30.—President Wilson's patriotic appeal to the nation to express a verdict on his conduct of the war, has given the state campaign new life. The days of apathy are over.

From every section of Oklahoma comes word from patriotic Oklahomans, regardless of past party affiliation, declaring that in the present contest they will back up the president.

From the first and eighth congressional districts, now represented by Republicans, comes assurance that voters are disregarding party lines and that E. B. Howard will be elected to congress in the first district and C. H. Hyde, the farmer candidate in the eighth district, will overcome the plurality Congressman Morgan has heretofore secured.

Judge J. B. A. Robertson, democratic nominee for governor, is receiving hundreds of letters and telegrams from patriotic Oklahomans announcing a new alignment of voters is on throughout the state. Ben F. LaFayette, chairman of the Democratic State Committee, announces that the appeal of the president will result in a clean sweep of Oklahoma by all democratic nominees, and that the state ticket will be elected by not less than 50,000 plurality.

## WAR WORK CAMPAIGN CHAIRMEN APPOINTED.

A communication from state headquarters announced the appointment of E. Dahlinger of Shawnee and P. A. Norris of Ada as district and county chairmen, respectively, for the coming campaign for funds for the United War Work, embracing

## FINE FEATHERS

By HELEN C. WHITE.

(Copyright, 1912, by the McClure Newspaper Syndicate.)

At 5:30 Marilyn sighed as she closed her desk. It was not because she had worked long after the other girls had gone home to get ready for the evening's fun, for she was used to doing that. When one has made up her mind to look after home until brother is through college she is glad of the chance to earn a little extra. But still she could not forget that flimsy pink georgette waist that she had tried on the other day. It had given her a new vision of herself; before she had always scoffed at the other girls' preoccupation with clothes, but now she knew.

Yet I doubt if Marilyn would have thought twice of the waist had it not been for the manager's new secretary, whose genial vigor and clever, handsome face had interested Marilyn as she never dreamed a young man could interest her. Yet he had said little to the shy, pretty little girl who did not know how to "carry on" with him as did the other girls. Only she fancied he spoke with an added respect whenever he addressed her.

No wonder Marilyn smiled when a laughing voice presently interrupted her thoughts. "Miss Day, I'm going to see you home, if I may have the pleasure."

"Of course you may. I'll be ready in just a moment."

For a moment Marilyn forgot her recent perplexity. Mr. Everest was going to see her home! What would the other girls say when they heard? And she tucked the stray curls under her plain little black hat. It would be extravagant, but she wanted to look pretty more than ever.

She was too excited to see the admiration in Bob Everest's eyes when he came over to her desk, and all he said as they reached the door was "I guess the moon is waiting for us."

"It is a beautiful night," she murmured as they gazed up at the moon shimmering on the cold walls of the buildings.

"It will be so much nicer when we get out of this bare business section," she said presently.

"I hate it here—one can hardly breathe, not but what I like the work," he added. But she did not hear him. What would he say when he saw where she lived? All the glow faded from her face.

"I really can't let you come any farther," she began lamely; "it's only a little way," and then she stopped, for they were just crossing into one of those beautiful old streets with stately stone-fronts that seem full of that mellow grace of old Boston. She saw the false suggestion in her words, but to her surprise he looked troubled and uncomfortable.

"You seem just to belong here," he answered wistfully. For a moment Marilyn thought of running up to one of these aristocratic doors and bidding him good-night, but she blushed hotly at the thought of such sham.

She was so embarrassed and ashamed that she did not see his relief when they turned into a humbler part of the great city. Some of the old houses still followed them, but these were given over to shops and boarding houses. With the swift transition so characteristic of the great city, they were coming into a dismal, crowded, run-down section. A great lump rose in Marilyn's throat as she looked furtively at the handsome face beside her. For the moment she could see the place where with such toll she had made their home of which she was so proud, through his eyes, used to big, handsome houses.

When they turned into the dark, narrow street, at the end of which stood the tiny, weather-beaten little box of a house, she could stand the agony no longer. She had made him think her a cultured, fastidious lady—what would he think now?

"You've come far enough," her voice shook, but she faced him bravely. "Besides, I don't think you'd ever want to—" She could not finish, but by the sudden jump of the arm in hers she knew he at last understood. The night air grew hot and stifling while she waited.

"Do you really care?" His voice was shaking with joy. For a moment he stared in her bewildered face.

"Marilyn, I thought you lived up there, far out of the reach of a poor chap like me. So I didn't tell you I'm really on my own way home just a little farther on." The warmth in his voice sent the blood hot through Marilyn's cold veins. But all she could say sounded for the moment stupidly irrelevant.

"In two years my brother will be through college."

"In two years my college debts will all be paid." He paused. "Will you?"

"Take a house on B—street?" she laughed happily.

When half an hour later Marilyn handed her pay envelope unbroken to her mother the latter looked at her inquiringly.

"But how about the waist, dear?" For a moment Marilyn paused—she had forgotten all about it.

"I don't believe I need it, mother, dear. I just thought I did."

## TOBACCO AS BAIT TO CAPTURE HUNS

With the American Forces Northwest of Verdun, Sunday, Oct. 27.—Americans now count among their prisoners fifty-one members of the second German landwehr, who are the most sadly disillusioned men from the German Emperor's army. The men still are convinced that they were played a shabby trick in being taken prisoners, though they are quickly becoming reconciled to their lot by their generous rations of food and tobacco.

The Germans for several days had been coming unarmed out of their trenches, creeping forward to a point midway between the two lines, where they had been given bread and tobacco by the Americans. Their doors, they told an American intelligence officer today, wore crosses on their shoulders.

The other day when they came over they were told that the next time each man would receive five sacks of tobacco instead of one sack. The opportunity was too good to be lost, and instead of groups of three, four and five, as heretofore, fifty-one men came in a group for the tobacco and food.

The Germans were hospitably received at the customary rendezvous, split into small groups and invited to come to another spot, where the distribution would take place. That spot proved to be the intelligence officer of the American division where the landwehrs were informed that they were prisoners.

The Germans indignantly demanded to be sent back to their lines immediately, together with their rations of five sacks of tobacco and bread. For a long time they could not be induced to say why they had been basely treated, but they gradually came to renounce their demand that they be returned, especially when they saw the treatment accorded by the American soldiers to them and to other prisoners. The landwehrs will receive their extra rations as per promise.

## McKEOWN WILL NOT RESIGN FROM CONGRESS

Some appear to have misconstrued the statement in the News regarding Congressman McKeown's entering training camp, taking it for granted that he is to resign from congress. However, in tendering his services for the training camp it is not necessary for him to resign his position, but only ask for a leave of absence for the short session which begins in December and ends March 4. The next regular session of the term for which he will be elected Tuesday will not convene until December, 1919. He will draw no salary for the time he is on leave of absence, however. He has arranged for other Oklahoma congressmen to look after the interests of his district during his absence.

Four more applicants for places in the S. A. T. C. arrived this afternoon too late for enlistment, the unit being limited to 100. One of these young men came from LeFlore County. Under the rule laid down by the war department the quota of 100 could not be exceeded and the applicants were unable to enlist.

A man sold me a gold brick  
It made me angry  
then,  
But now I'm glad, at least it shows  
I trust my fellow-men.

# Real Meaning of the Building Restrictions

Since the War Industries Board sent forth its famous Order No. 21, restricting building, we have had numerous inquiries from our readers as to the exact meaning of that order and what class of buildings were prohibited and what allowed and under what conditions.

A matter of such vital importance to the growth of Ada a matter which can so radically affect its prosperity—calls for a clear understanding and explanation.

In order to secure the official, authoritative ruling, we interviewed Mr. W. W. Sledge, of the Sledge Lumber Co., manager of the Sledge Lumber Co.

Mr. Sledge tells us that the main idea was to entirely stop ALL building that was not absolutely necessary; this in order to save fuel, transportation, materials, money and, above all, the labor which is so vitally required both in the draft and in direct war work on ships, buildings, airplanes, munitions, supplies, etc., from the raw materials to the finished product.

However, the War Industries Board, realizing the stagnation that would result from a literal reading of this order as well as the damage to property left subject to the ravages of time and use and weather without repairs, modified the rule to permit:

1—Repairs of or extensions to existing buildings involving in the aggregate a cost of not exceeding \$2,500; and

2—New construction for farm purposes only involving in the aggregate a cost not exceeding \$1000.

The matter, as explained by Mr. Sledge, is quite clear, and there should be no misunderstanding.

Briefly, any one can, just as before, and without a permit:

1—Make repairs or extensions to any EXISTING building of any kind, providing the TOTAL COST, including labor, materials and everything else, is UNDER \$2,500;

2—Build a NEW building, for FARM PURPOSES ONLY, where the TOTAL COST as above is UNDER \$1000;

3—For ALL OTHER BUILDING WORK, a permit must be first secured through P. A. Norris, O. N. Walker or A. M. Gregg, representing locally the War Industries Board.

Any violation of this regulation will subject the dealer to a loss of all privileges of purchasing his stock.

Each builder is put individually on his honor to confine his construction work to REALLY ESSENTIAL BUILDINGS and also to use as little "skilled labor" as possible.

It will be seen from the above that while NEW buildings, except small ones for the farm, are frowned on, yet REPAIRS AND NECESSARY EXTENSIONS are permissible without permit; and we believe in view of the tremendous building that will immediately follow the declaration of peace, that it will be exceedingly wise for our readers to plan for all such work at their earliest opportunity.

## COTTON RECEIPTS NEARLY 5000 BALES

The County Cotton Yard at Ada has received 4,820 bales of cotton during the present season. The movement has been very light of late and the figures will be much lower when the season finally closes.
